

SC6

Surface Mount Housing for LR6

Product Description

The SC6 is a cylindrical surface mounted housing designed to accommodate the LR6 family of modules. The SC6 expands the application of LR6 modules to locations where it is not possible to recess into the ceiling. Its subtle, unobtrusive design allows it to integrate cleanly into a variety of architectural environments.

The LR6 modules generate light with LED's in a new way that enables an unprecedented combination of light output, high efficacy, beautiful color, and affordability.

Performance Summary (of LR6 module)

- Nominal delivered light output = 650 lumens
 - Nominal input power = 12 Watts
 - CRI 92
 - CCT = 2700k or 3500K
 - Dimmable to 25%

Ordering Information

Compatible with: LR6-GU24, LR6C-GU24

- **SC6-GU24** Textured white, GU24 socket
- **SC6-BL-GU24** Textured black, GU24 socket

Specifications and Features

- Rugged spun aluminum housing with textured white polyester powder paint
- Attaches directly to standard 4" electrical junction boxes.

NOTE: Not designed for pendant or cord mounting
